

**Distington Community School**

**Mental Health and  
Emotional Wellbeing  
Policy**

**2024-2025**

**Policy Statement**

Mental health is a state of well-being in which every individual realises his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to contribute to her or his community.

*(World Health Organisation)*

At our school, we aim to promote positive mental health for every member of our staff and pupils. We pursue this aim using both universal, whole school approaches and specialised, targeted approaches aimed at vulnerable pupils.

In addition to promoting positive mental health, we aim to recognise and respond to mental ill health. By developing and implementing practical, relevant and effective mental health policies and procedures we can promote a safe and stable environment for pupils affected both directly, and indirectly by mental ill health.

### **Scope**

This document describes the school's approach to promoting positive mental health and wellbeing. This policy is intended as guidance for all staff including non-teaching staff and governors.

This policy should be read in conjunction with other relevant school policies such as Safeguarding and Child Protection policies.

### **The Policy Aims to:**

- ✦ Promote positive mental health and emotional wellbeing in all staff and pupils
- ✦ Increase understanding and awareness of common mental health issues
- ✦ Enable staff to identify and respond to early warning signs of mental ill health
- ✦ Provide support to staff working with young people with mental health issues
- ✦ Provide support to pupils suffering mental ill health and their peers and parents/carers
- ✦ Develop resilience amongst pupils and raise awareness of resilience building techniques

### **Lead Members of Staff**

Whilst all staff have a responsibility to promote the mental health of pupils. Staff with a specific, relevant remit include:

- Mrs D Benson – Mental Health Lead, Safeguarding Team, EYFS/KS1 Sendco
- Miss L. Savage - Designated Safeguarding Lead, Youth Mental Health First Aider
- Miss R. Quarry – Deputy Designated Safeguarding Lead, Kidsafe, ELSA Lead, Youth Mental Health First Aider
- Miss A. Quirk – Deputy Designated Safeguarding Lead
- Mrs J. Hughes - Safeguarding Team, Youth Mental Health First Aider
- Mrs N. Stephenson - Mental Health Governor, Youth Mental Health First Aider
- Mrs J. Kellett - Youth Mental Health First Aider
- Miss F. Watson – Safeguarding Team, KS2 Sendco
- Mrs V. Askew – ELSA support

Any member of staff who is concerned about the mental health or wellbeing of a pupil should speak to a mental health lead in the first instance. If there is a fear that the pupil is in danger of immediate harm then the normal child protection procedures should be followed with an immediate referral to the designated safeguarding lead or a member of the safeguarding team. If the pupil presents a medical emergency then the normal procedures for medical emergencies should be followed, including alerting the first aid staff and contacting the emergency services if necessary.

Where a referral to CAMHS is appropriate, this will be led and managed by Miss Savage, Mental Health Lead or Mrs Benson (EYFS/KS1 SENDCO)/ Miss Watson (KS2 SENDCO).

### **Teaching about Mental Health**

The skills, knowledge and understanding needed by our pupils to keep themselves and others physically and mentally healthy and safe are included as part of our developmental PSHE curriculum.

The specific content of lessons will be determined by the specific needs of the cohort we are teaching but there will always be an emphasis on enabling pupils to develop the skills, knowledge, understanding, language and confidence to seek help, as needed, for themselves or others.

We will ensure that we teach mental health and emotional wellbeing issues in a safe and sensitive manner which helps rather than harms.

### **Signposting**

We will ensure that staff, pupils and parents are aware of sources of support within school and in the local community. Support that is available can be found on the mental health and wellbeing section of our school website. <https://distington-comm.secureprimarysite.net/mental-health-and-well-being/>

Alternatively support can be located by accessing Cumbria's local offer. <https://localoffer.cumbria.gov.uk/>

### **Sources of Support from Outside Agencies**

These can be accessed through a referral from Mr Barnes or Mrs Sanderson

- CAMHS 1:1 support
- CAMHS My Time
- Family Action
- Educational Psychology Team
- Behaviour, Emotional and Well-being officer
- Access and Inclusion team

### **Sources of Support in School**

- Music therapy
- Well-being Wednesdays
- Therapy dogs
- ELSA groups
- Nurture groups
- Free breakfast club
- Kidsafe
- Social stories
- Sensory room
- Recovery curriculum
- Jigsaw
- Mental health passports
- Additional sports coaching

- Mental health awareness assemblies
- Staff training and development
- Well-being initiatives for staff
- A commitment to the education staff wellbeing charter
- Information sessions for parents
- Sharing and promoting support with pupils and parents via social media

### **Warning Signs**

School staff may become aware of warning signs which indicate a pupil is experiencing mental health or emotional wellbeing issues. These warning signs should **always** be taken seriously and staff observing any of these warning signs should communicate their concerns with Mr Barnes, our mental health lead or one of the safeguarding team.

Possible warning signs include:

- ✦ Physical signs of harm that are repeated or appear non-accidental
- ✦ Changes in eating / sleeping habits
- ✦ Increased isolation from friends or family, becoming socially withdrawn
- ✦ Changes in activity and mood
- ✦ Lowering of academic achievement
- ✦ Talking or joking about self-harm or suicide
- ✦ Abusing drugs or alcohol
- ✦ Expressing feelings of failure, uselessness or loss of hope
- ✦ Changes in clothing – e.g. long sleeves in warm weather
- ✦ Secretive behaviour
- ✦ Refusal to take part in PE or getting changed secretly
- ✦ Lateness to or absence from school
- ✦ Repeated physical pain or nausea with no evident cause
- ✦ An increase in lateness or absenteeism

### **Managing disclosures**

A pupil may choose to disclose concerns about themselves or a friend to any member of staff so all staff need to know how to respond appropriately to a disclosure.

If a pupil chooses to disclose concerns about their own mental health or that of a friend to a member of staff, the member of staff's response should always be calm, supportive and non-judgemental.

Staff should listen, rather than advise and our first thoughts should be of the pupil's emotional and physical safety rather than of exploring

All disclosures should be documented on CPOMS. This written record should include:

- ✦ Date
- ✦ The name of the member of staff to whom the disclosure was made
- ✦ Main points from the conversation
- ✦ Agreed next steps

This information should be shared with all members of the safeguarding team and the pupil's class teacher.

## **Confidentiality**

We should be honest with regards to the issue of confidentiality. If it is necessary for us to pass our concerns about a pupil on then we should discuss with the pupil:

- ✦ Who we are going to talk to
- ✦ What we are going to tell them
- ✦ Why we need to tell them

We should never share information about a pupil without first telling them. Ideally, we would receive their consent, though there are certain situations when information must always be shared with another member of staff and / or a parent.

Disclosures should always be shared with a colleague, usually the mental health lead and DSL. This helps to safeguard our own emotional wellbeing as we are no longer solely responsible for the pupil, it ensures continuity of care in our absence and it provides an extra source of ideas and support. We should explain this to the pupil and discuss with them who it would be most appropriate and helpful to share this information with. Parents must always be informed.

If a child gives us reason to believe that there may be underlying child protection issues, parents should not be informed, but the Designated Safeguarding Lead or Deputy Designated Safeguarding Lead must be informed immediately.

## **Working with Parents**

Where it is deemed appropriate to inform parents, we need to be sensitive in our approach. Before disclosing to parents, we should consider the following questions (on a case by case basis):

- ✦ Can the meeting happen face to face? This is preferable.
- ✦ Where should the meeting happen? At school, at their home or somewhere neutral?
- ✦ Who should be present? Consider parents, the student, and other members of staff.
- ✦ What are the aims of the meeting?

It can be shocking and upsetting for parents to learn of their child's issues and many may respond with anger, fear or upset during the first conversation. We are accepting of this (within reason) and give the parent time to reflect.

It may be necessary to highlight further sources of information and signpost parents to where further information can be found. It is possible that parents may find it hard to take much in whilst coming to terms with the news about their child. Sharing sources of further support aimed specifically at parents can also be helpful too e.g. parent helplines and forums.

We will always provide clear means of contacting the school with further questions and consider booking in a follow up meeting or phone call right away as parents often have many questions as they process the information. We aim to finish each meeting with agreed next step and always keep a brief record of the meeting.

Parents are often very welcoming of support and information from the school about supporting their children's emotional and mental health. In order to support parents, we will:

- ✦ Highlight sources of information and support about common mental health issues on our school website

- ✦ Ensure that all parents are aware of who to talk to, and how to access this support, if they have concerns about their own child or a friend of their child
- ✦ Make our mental health policy easily accessible to parents
- ✦ Share ideas about how parents can support positive mental health in their children through our regular information evenings
- ✦ Keep parents informed about the mental health topics their children are learning about in PSHE and share ideas for extending and exploring this learning at home

### **Supporting Peers**

When a pupil is suffering from mental health issues, it can be a difficult time for their friends. Friends often want to support but do not know how. In the case of self-harm or eating disorders, it is possible that friends may learn unhealthy coping mechanisms from each other. In order to keep peers safe, we will consider on a case by case basis which friends may need additional support. Support will be provided either in one to one or group settings and will be guided by conversations by the student who is suffering and their parents with whom we will discuss:

- ✦ What it is helpful for friends to know and what they should not be told
- ✦ How friends can best support
- ✦ Things friends should avoid doing / saying which may inadvertently cause upset ✦  
Warning signs that their friend help (e.g. signs of relapse)

Additionally, we will want to highlight with peers:

- ✦ Where and how to access support for themselves
- ✦ Safe sources of further information about their friend's condition
- ✦ Healthy ways of coping with the difficult emotions they may be feeling

### **Training**

As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular safeguarding training in order to enable them to keep students safe.

The [MindEd learning portal](#) provides free online training suitable for staff wishing to know more about a specific issue.

Training opportunities for staff who require more in-depth knowledge will be considered as part of our performance management process and additional CPD will be supported throughout the year where it becomes appropriate due developing situations with one or more students.

Where the need to do so becomes evident, we will host twilight training sessions for all staff to promote learning or understanding about specific issues related to mental health.

Suggestions for individual, group or whole school CPD should be discussed with Mr Barnes who can also highlight sources of relevant training and support for individuals as needed.
